Reasons must be given to increase the quota from 250 kg per person to 500 kg per person of raw venison. Large bodied species like eland, gemsbok and wildebeest must be on the list of animals that are going to be hunted in order to motivate for the larger quota.

Include 100 kg biltong and a few masks, skins, horns, skulls and heads on the permit application in order that these may also be exported if you should decide to do so

If you decide to use Mc Carthy's Rust or the Middelpits border post, the office may ask you for a letter from the state vet in Kuruman or Van Zyls Rus, stating they will inspect the meat
